George A.

Front-end Consultant Developer | Vue JS, Nuxt JS, Strapi JS

Tulcea, Romania

Summary

Building software and programming has changed my life for the better, it is what inspires and motivates me.

The personal development had me performing responsibilities on programming, business stakeholders meetings, writing technical specifications and plans to product delivery and reviews and more.

On a glance:

// JavaScript technical skills:

jQuery, jQuery UI

Vue JS, Vue 2, Vue 3, Option API and Composition API

Nuxt 2, Nuxt 3

// CSS and HTML skills

CSS 1, 2, 3

SASS / SCSS

HTML, XHTML, HTML5

// Back-end Technical Skills

Node JS, PHP

Strapi, Wordpress, Drupal

Experience

Sūpākyattsu

March 2022 - October 2023 (1 year 8 months)

Helping companies to build end-to-end software products with JavaScript, Vue JS and serverless technologies.

General attributions and tasks:

- Business logic definition, HLD and LLD documentation
- Architecture for the Front-end, planning, and execution

- Team liaison and representation
- Error definition and handling
- API Integration
- Authentication and Security

MyCivio

Full-stack Developer

June 2019 - February 2022 (2 years 9 months)

Tulcea, Romania

My role in this project was to provide user experience and user interface implementation for a SaaS product. For this particular project I chose Nuxt with Vue 2 Option API and Bootstrap.

There's been many challenges along and I managed to overcome them all and deliver an end-to-end product.

General attributions and tasks:

- Front-end Architecture
- Business logic definition, HLD and LLD documentation
- Architecture for the front-end, planning, and execution
- Error definition and handling
- API Integration
- Authentication and Security
- Strapi Models and API development

Union Investment
